

GMI™ 40 MARINE INSTRUMENT

AND UPDATED WIRED AND WIRELESS SAIL PACKS

PRODUCT OVERVIEW

Master the seas with the GMI 40 multipurpose marine instrument. It's easy to use and has a sleek 4.3" touchscreen display that supports real-time wind, speed, depth, heading, engine, fuel data and more. GMI 40 seamlessly integrates with your compatible Garmin chartplotters and wireless devices. New GMI 40 bundles offer complete sailing packages with multiple display, depth, speed and wind sensor options.

GMI™ 40 MARINE INSTRUMENT

AND UPDATED WIRED AND WIRELESS SAIL PACKS

KEY FEATURES

SLEEK AND STREAMLINED

This modern touchscreen display has an intuitive interface and edge-to-edge glass that complements the look of your Garmin chartplotters.

COMPLETELY INTEGRATED

As an NMEA 2000® certified device, your GMI 40 marine instrument integrates smoothly with compatible systems across your boat.

SIMPLE YET CUSTOMIZABLE

Flexible gauge sets and page layouts let you place the data you need exactly where you want it.

A NETWORK YOU CAN TRUST

Garmin BlueNet™ offers streamlined connectivity with compatible Garmin devices for full-system integration.

SEAMLESS DATA

See the shift before you feel it with easy-to-read real-time wind, speed, depth and heading insights from your compatible devices.

SIMPLIFIED ENGINE DATA

See engine and fuel data from your compatible devices at a glance to easily monitor levels and optimize performance.

Please note: The ECCNs and Classification numbers provided represent the opinion of Garmin International, Inc. of the proper classifications for the products today (based on the original software and/or original hardware). Classifications are subject to change. Under the U.S. export regulations, the U.S. Government assigns your organization or client, as exporter/importer of record, the responsibility for determining the correct classification of any item at the time of export/import. Depending on the products, the customer, or the country of destination, an export license may be required by the Department of Commerce prior to shipment. The Department of Commerce's Bureau of Industry and Security (former Bureau of Export Administration) website (<http://www.bis.doc.gov>) provides information that might be useful to you in determining whether you need to obtain a license for a particular shipment. To be clear, if an item described above does require a validated export license, it would be the exporter's responsibility to obtain this license prior to exportation.
