

#### 600 FOOT DEPTH RANGE

Intelligent sonar delivers unmatched depth readings to 600 feet. It also produces on plane readings up to 60 MPH.

#### DEPTHTRAX™ INTELLIGENT SONAR

Delivers precise depth readings and auto targets and intensifies bottom echoes for error free readings.

#### AUTOMATIC RANGE & SENSITIVITY

No need to dig through menus to make performance adjustments, we take care of just about everything for you.

#### WATER TEMPERATURE

A sensor embedded in the transducer provides the display with water temperature readings to the nearest 1/10th degree.

#### AIR TEMPERATURE READINGS

The display includes an air temperature sensor with a 3 ft harness to allow localized air temperature readings.

#### DUAL DEPTH ALARMS

Dual upper and lower depth alarms can be set throughout the full depth range to warn of water depth changes.

#### 3-STAGE ADVANCED WARNING SYSTEM

Signals audible and visual alarms when shallow and deep water parameters are triggered.

#### 1-TOUCH ALARM MUTING

Instantly turns off audible depth alarms so that you can focus on the water and not your depth finder.

#### KEEL OFFSET

Adjust automatically adjusts depth readings for a vessels' draft requirements.

#### ALGORITHMIC SOFTWARE

Over 20 years of sonar development minimizes false readings and delivers precise targeting.

#### ENGLISH & IMPERIAL READINGS

Easily change readings from feet to meters through the EasyTouch™ Menu.

#### POLARIZED LCD

Allows for glare-free viewing of the display in any light condition, with or without sunglasses on.

#### LED BACKLIGHTING

Low power consumption LEDs will not waste battery power or cause heat buildup & condensation.

#### EASYTOUCH™ PROGRAMMING

FishTrax's user interface is designed & written by real users, in the real world. Not by engineers in a lab.

#### INCLUDES 4 COLOR COMBINATIONS

Choose from white face/bezel, to black face/bezel, to white bezel/ black face and black bezel/white face.

#### DUAL MOUNT TRANSDUCER

The standard transducer can be transom mounted or glued inside most boat hulls.

#### OPTIONAL AIRMAR THRU-HULL\*

Achieve ultimate performance with an ultra-sensitive AIRMAR P19 2" plastic thru-hull transducer.

#### FULLY CUSTOMIZABLE

Surface mount with our specialized gauge pod or add some bling with a gold or chrome bezel.

#### WATERPROOF FRONT FACE

Display face is 100% waterproof. Rain, salt spray, and even a soaking from the hose won't penetrate to the inside.

#### DESIGNED AND SUPPORTED IN THE USA

HawkEye® products are manufactured both in the USA and overseas using technology designed and developed with American ingenuity.

#### YOU BREAK IT... WE FIX IT...

Hassle free repair or replacement for any damage, for any reason.
