OSPREY CH7600 TOP MOUNT CONTROL (LEVER ON LEFT)

FEATURES

- Superior feel and function for most outboards, stern drives & inboards
- Dual function lever controls both throttle and shift of one engine
- Neutral safety offers start-in-gear protection (standard)
- Optional Trim in the handle for each model
- Neutral engine warm-up feature (standard)
- Optional tilt switch available
- Friction adjustment feature included
- "Easy-On" cable design accepts virtually every type of OEM and 3300/33C type cable
- Easily adapted to push or pull cable actuation mode
- Mechanical advantage 2.38:1
- Meets/exceeds all applicable standards
- Made in the U.S.A

The ergonomics and feature of our CH7600 controls are advanced beyond those of any other control on the market. A shapely, balanced handle design provides an incredibly smooth yet positive feel, throttle warm-up and start-in-gear protectionfeatures are standard on all CH7600 models, with neutral interlock and power trim / tilt offered as an option.

In addition the cosmetics of these controls can be configured to many tastes. CH7600 controls are suitable for use with both universal type 33C / 3300 or OEM type control cables without the need for additional adaptors.

NOTE: The handle is on the left side of the dome. For right side lever see CH7500 series.
