## Applying Oil-Based Paints is Smooth Sailing

For some applications, there's still no substitute for oil. Since 1958 painters have reached for the original Wooster Yachtsman brand to apply these durable wood finishes. Yachtsman paintbrushes feature carefully selected, unbleached white China bristle that is soft enough for flowing on the finest varnishes, yet resilient enough for applying the heaviest enamels. Solid plastic handles won't warp, chip, or peel around moisture or solvents. Yachtsman looks, feels, and paints like a much higher-priced brush.

- Natural white China bristle, chisel construction
- Brass-plated steel ferrule
- Soft formulation, perfect for fine finishing
- Black, solid plastic handle

Cat. No. & Style	UPC 0-71497-	Size	Length	Thick	Case Qty.	Cubic Ft. Per Case	Pounds Per Case
