

SERIES **S** FOR BOATS UP TO 50 FT

ZIPWAKE

Experience the thrill of a smooth, comfortable ride at the touch of a button. The Dynamic Trim Control System Series S upgrades your boating experience – fully automatically.

CHOOSE COMFORT.

ENJOY PERFORMANCE.

BENEFITS

RELEASE YOUR BOAT'S TRUE POTENTIAL

WHEN WE SAY FULLY AUTOMATIC, WE MEAN IT

No other system is so easy to use. Just press the AUTO button and let the Series S do the work. No manual adjustments necessary.

HOLD STEADY

Say goodbye to uncomfortable pitch and roll. The Series S dynamically and automatically keeps your boat on an even keel — regardless of wind, load distribution or rough waves.

EXPAND YOUR COMFORT ZONE

With the Zipwake system installed, you don't have to drive fast to get your boat up on plane. This means you can enjoy a comfortable ride even at lower speeds.

TURN IN STYLE

Perfectly coordinated turns — every time. Whatever your speed, the Series S automatically adjusts the heeling angle of your boat for a safer and more comfortable ride.

KEEP YOUR EYE ON THE HORIZON

Enjoy better visibility. Zipwake interceptors extend at least 5 x faster than conventional trim tabs to get you on plane quickly, so you never lose sight of what's in front of you.

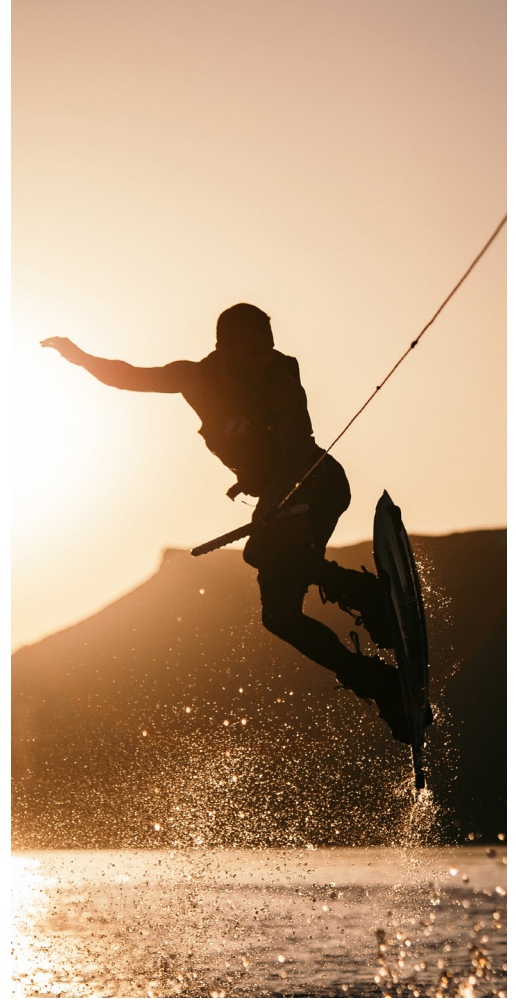

UP TO 20% FUEL SAVINGS

Our systems automatically minimize wave resistance and improve boat performance. This can reduce your fuel consumption by as much as 20%.

ZIPWAKE IS
FOR **EVERYONE**

HOW IT WORKS

TOTAL RIDE CONTROL

The Series S brings together a family of durable, fast-acting interceptors and intuitive 3D controls to give you unmatched command of running trim, heel and heading. No matter what.

COMPLETE AND EASY TO INSTALL

Includes everything you need to get up and running quickly—no additional components required. Thanks to the modular design, the system is also easy to expand.

INTUITIVE AND PRECISE CONTROL

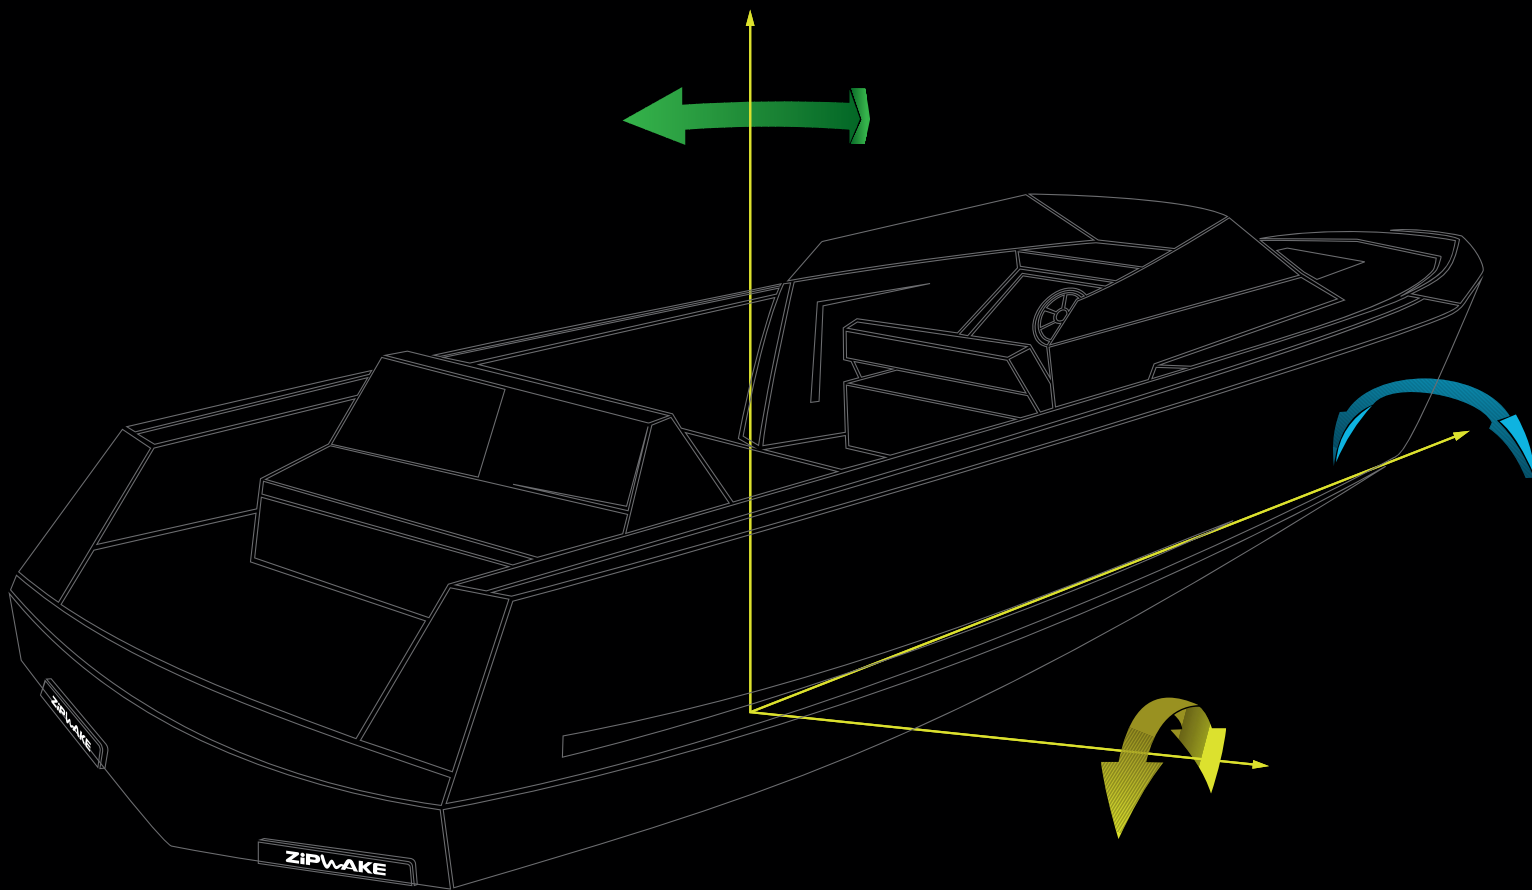

Innovative 3D controls provide unmatched control of running trim, heel and heading.

CONFIGURABLE FOR OPTIMAL PERFORMANCE

With the Integrator Module each pair of port and starboard interceptors can be customized separately for active or inactive control of pitch, roll and yaw.

DURABLE AND EFFECTIVE

Patented, durable, fast-acting interceptors provide supreme lift.

CONTROL PANEL

STYLISH AND INTUITIVE

The Series S control panel puts a smoother, more comfortable ride at the tips of your fingers. Features a sunlight-readable and waterproof color display and an AUTO button for fully automatic trim and motion control.

INTEGRATOR MODULE

CREATE YOUR PERFECT SET-UP

Get all the joy of a Zipwake system without adding clutter to your dashboard. The Integrator Module seamlessly connects the system to your boat's chartplotter/MFD and your smart devices (included in Kit Boxes for integration).

CLEAN DASHBOARD

No control panel required: the Integrator Module lets you operate your Zipwake system via chartplotter/MFD.

SEAMLESS INTEGRATION

Connect to multiple chartplotters/MFDs from different manufacturers.

WIRELESS CONNECTIVITY

Configure, operate, monitor and update the system wirelessly via the Zipwake app on your smartphone or tablet.

EASY TO INSTALL—ANYWHERE

Discreet and waterproof, the Integrator Module fits behind the helm/dash, on the flybridge or in the engine room.

MASTER THE

A full-page background image of a powerful ocean wave crashing. The water is a deep, vibrant blue, and the crest of the wave is breaking into white foam. The sky above is a mix of grey and brownish tones, suggesting an overcast or stormy day. The word 'ELEMENTS' is written in large, bold, white, sans-serif capital letters across the middle of the image, partially obscured by the wave's foam.

ELEMENTS

PRODUCT RANGE

A SYSTEM FOR EVERY TRANSOM

Zipwake gives you a wide range of interceptors to choose from, making it easy to configure the optimal system for your boat.

Each Series S Kit Box comes complete with everything you need to install a Dynamic Trim Control System. Choose between a standard Kit Box with a control panel or a Kit Box for integration, which includes an Integrator Module.
